Combining thirty years of trial experience with one of Wisconsin's brightest young litigators, the Milwaukee firm of Domnitz & Skemp is uniquely situated to offer injured people both high quality representation and person to person contact. Long known and respected for his passionate representation of injured persons, Ric Domnitz has joined forces with Tony Skemp to form one of Milwaukee's most dynamic personal injury firms.

From high profile police misconduct cases to wrongful death automobile accidents and professional malpractice matters, Domnitz and Skemp provide efficient and effective representation from the claims stage through litigation, trial, and appeals. A positive attitude and the insightful analysis of claims along with dedication and aggressive lawyering has fast become the hallmark of this firm.

*"To us, every client is important, regardless of the size of the claim. The issue is the rights guaranteed to the citizens by the Constitution and the value of the particular claim should never dictate the quality of the services provided."*

Domnitz & Skemp, S.C., stands for the proposition that civility must remain a component of civil litigation. Throughout all their cases Ric and Tony have built a reputation for honest yet tenacious, tough but fair, and intense but sensitive representation of their clients.

*"We believe the greater good of society is best served when lawyers, in the zealous representation of their clients, conduct themselves so as to bring respect to the civil justice system. We represent our clients in a manner that is designed to maximize their lawful recovery while maintaining the integrity of the system. We see no conflict in those two components of the practice."*

This combination of total dedication to the cause of their clients and respect for the civil justice system has allowed Ric and Tony to achieve positive results for their clients ranging from multi-million dollar medical malpractice verdicts to precedent setting results in the Wisconsin Supreme Court and effective and efficient settlements of personal injury accidents of all types. It has also resulted in both lawyers being selected this year, Ric Domnitz as a Super Lawyer and Tony Skemp as a Rising Star.
